

K7EBM05VV

ELECTRIC BAIN-MARIE SINGLE TANK 1/1 GN + OPEN CABINET

PRODUCT DESCRIPTION

Stainless steel frame. Athermic thermoset plastic knobs with useful screen printed edges.

Heating achieved through **ETCHED FOIL heating elements**: heat is transferred only to the tank bottom for energy savings. Manually-reactivated safety thermostat. Operation through ON-OFF switch and a 30°C-90°C thermostat with probe immersed in the tank.

AISI 304 work top with rounded corners for easy cleaning. Stainless steel front, side and backside panels.

Cold moulded AISI 304 tank with drain hole, suitable for containers **up to 150 mm high**. Possibility to hold multiple containers **up to 1/1 GN**.

Water filling tap on the front panel. AISI 304 elliptical cross-section designed handles. Tank drain on the front panel and operated by a lever.

Laser-cut work top finishing for "head-to-head" matching and binding fastening.

Height-adjustable stainless steel legs.

Accessories available **on demand**.
